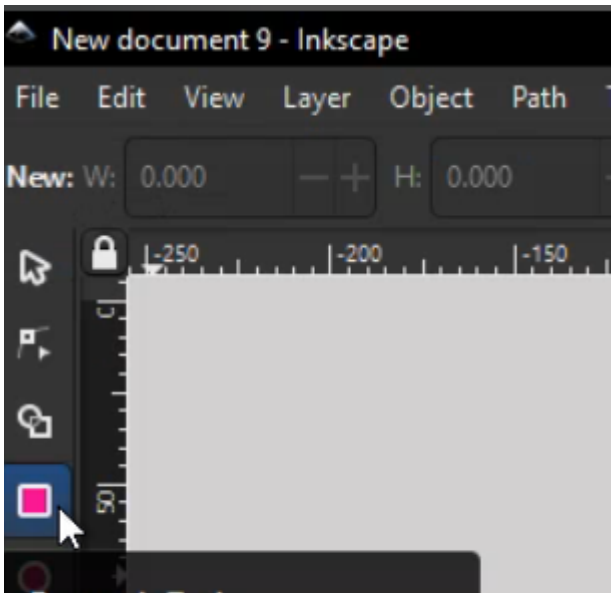
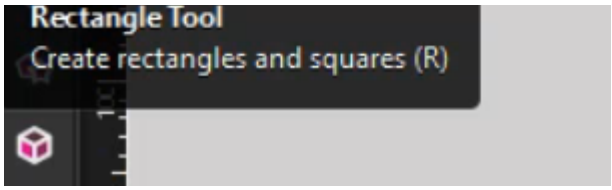
Report Writing/ Drawing with Inkscape/ Inkscape - plotting functions

Inkscape: Drawing functions

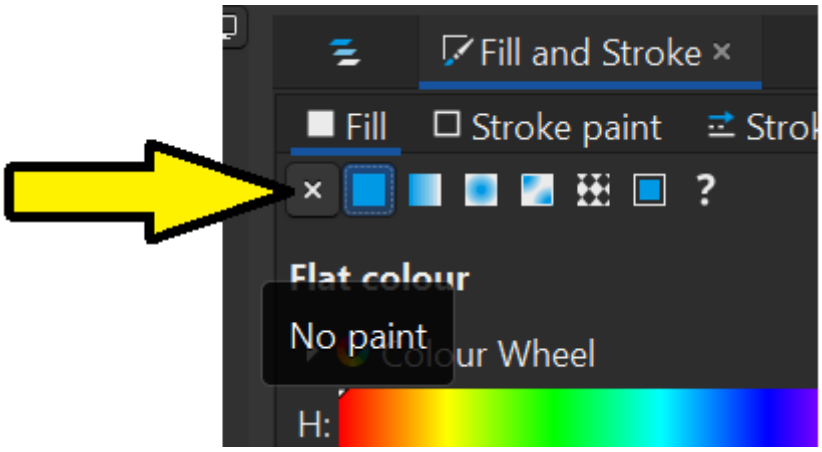
Create a new rectangle using the rectangle tool.



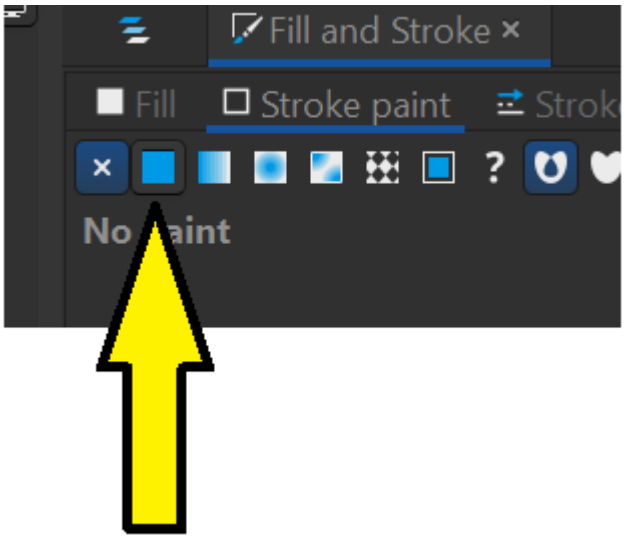


Use this to click and drag to draw a new rectangle.

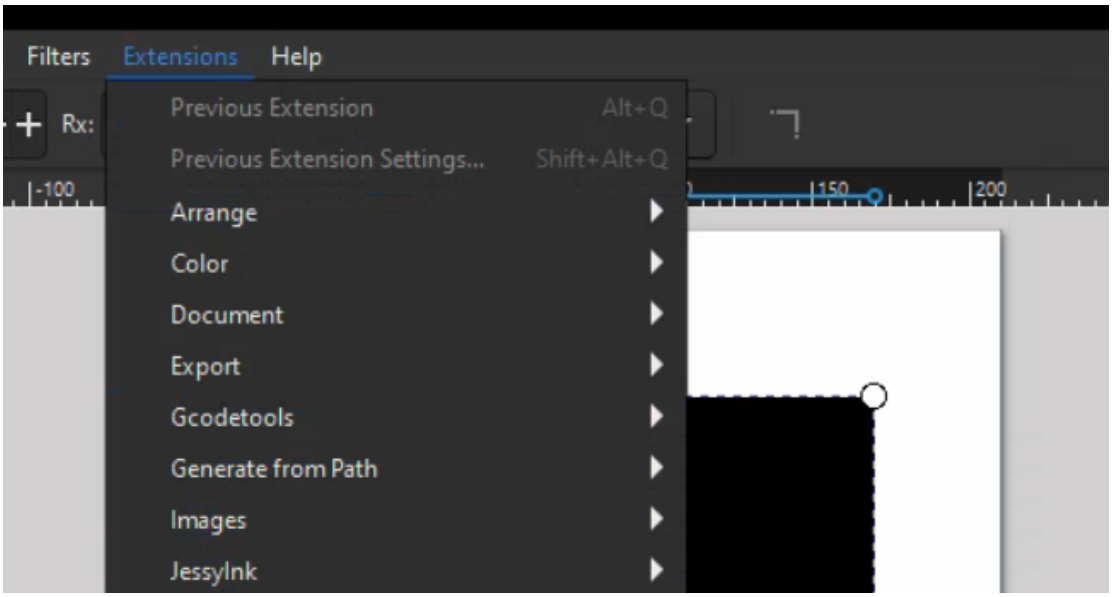
In the Fill and Stroke menu on the right hand side, turn off the fill.

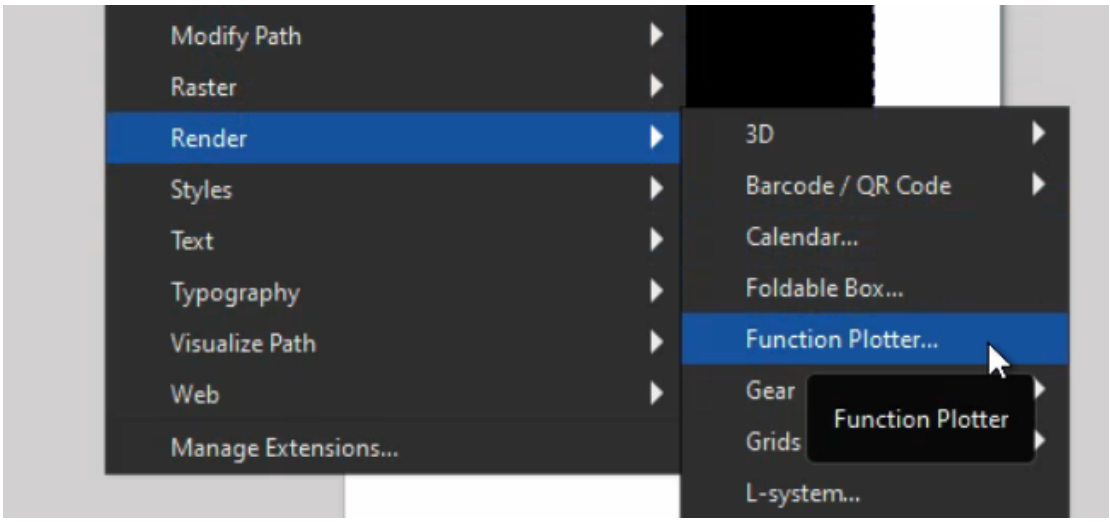


And under Stroke Paint, turn on colouring in the line.

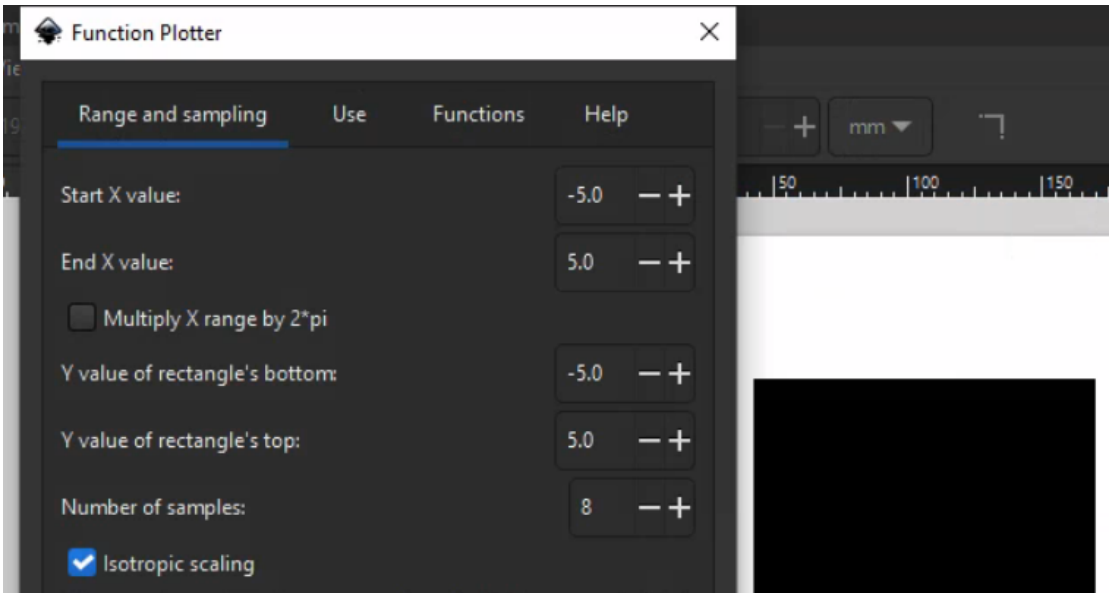


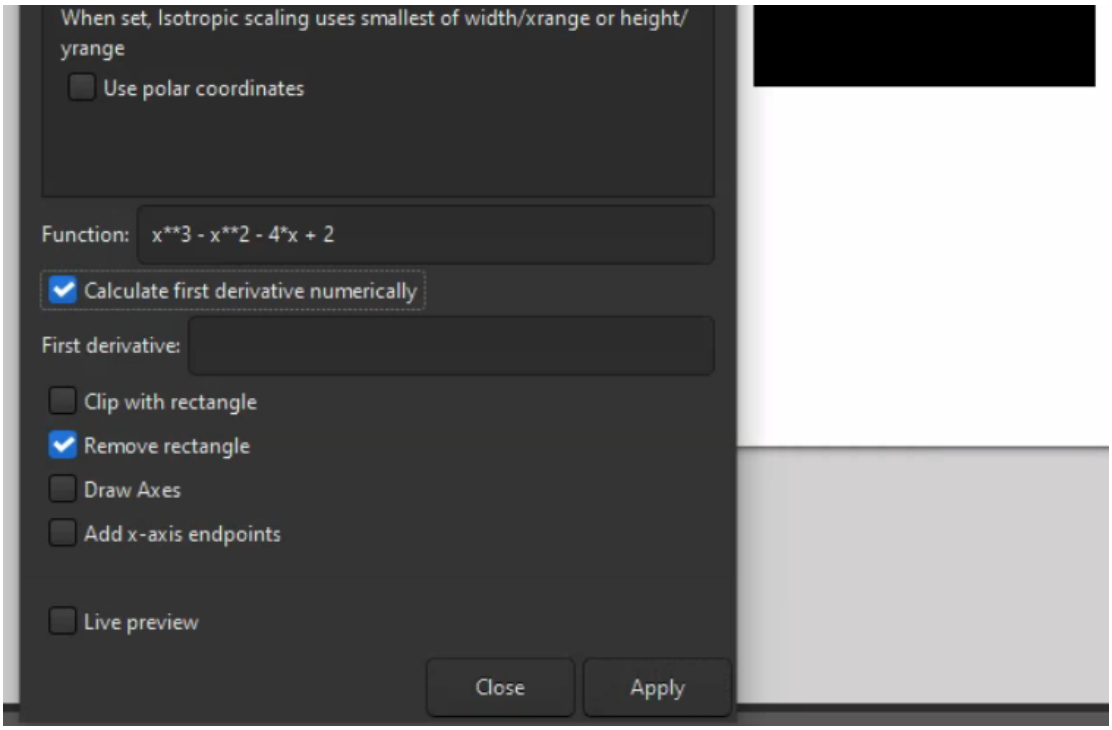
Go to Extensions menu then Render, then choose Function Plotter.





In the pop up that appears, try to reproduce the settings shown here, then click 'Apply'.





You should find you are looking at your function.
